Which is better,  
Fritz, Rybka  
or Shredder?

# Help!

## I Need ChessBase Tech Support!

Are you in need of help to get the latest chess software from *ChessBase* up and running properly? Can't quite figure out how to get your *ChessBase* programs to do what you want? Overwhelmed by the number of features and options at your finger tips? Frustrated at the "user-friendly" software that you just purchased?

*If you're a customer of USCF Sales, help is here!*

For nearly two decades, Steve Lopez has been providing expert technical assistance to *ChessBase* software users from around the world. His popular Internet columns on chess software use have been an invaluable resource to countless chess players since 1997, and his how-to videos are required viewing for anyone that wants to become a *ChessBase* power user!

Steve will be providing advanced technical support to customers that have purchased ChessBase-brand software from USCF Sales from 9AM-5PM Eastern, Monday through Friday.

*We're sorry, but Steve will only be able to provide customer service to those customers that have purchased their ChessBase Software from USCF Sales.*

How do I install  
Fritz Powerbook  
and Endgame  
Turbo 3?

How do I get  
ChessBase 11 to...?

How do I handicap  
my software to get  
an easier game?
